Washington, June 2 (U.S.S.)—Former Attorney-General Harry M. Daugherty has been advised by the Justice Department not to appear at a hearing Friday on his resignation.

Newport society

Officials of the New England Telephone & Telegraph Company were today accused by E. Mark Sullivan, corporation counsel for the city of Boston, of having started a "whispering campaign for politics" to offset the city's opposition to the increase in toll and private branch exchange rates asked for by the company. Sullivan made the charge after a hearing before the Public Utilities Commission, which is now considering the rates. The hearing was held in the City Hall.

Mark Sullivan contended that no reasonable decision on the petition for the increases could be given until the company had furnished the commissioners with the information requested. He said that the company had refused to furnish the commissioners with the information in relation to private branch exchange rates, and that he had received from short haul toll rates

information the time it would take to get it and the expense involved. He said that the company had reached without these statistics would be necessary of an arbitrary decision.

"If the company gets the information, it is gratifying to me," he stated, "but it is not to be long in coming."

WANTS STATISTICS.

He demanded that the company be required to give this information, saying they have refused to do so to date.

What Attorney Sullivan desires is:

A List of private branch exchanges in the city of New York City, by telephone number, listing the company's territory divided by States, indicating whether such installations are receiving their service under the Federal Communications Commission schedule and the date of original installation.

If a fair and thorough investigation might be made by the Telephone & Telegraph Company by the commission suggested by Mayor Curley, and if the Public Utilities Commission would consent, there can be no doubt of the "truthfulness" of the information published over the shortest time possible by the phone company.

PARRY.

This is the statement of Superintendent William H. Keane, of the Boston Telephone and Telegraph Company, in support of the Boston Americans for their local house, to protect the position and a half dollar rate increase in the Boston Telephone and Telegraph Company.

The position and a half dollar rate increase is not the extra toll rate increase if the phone company is not in the position and a half dollar rate increase.

"Few people realize just how much out-of-town people depend upon the telephone for in the city and the matter of adjustments, it is a

**BELGIUM HOPES FOR
THIRD FALLOON WIN**

Brussels, June 4.—Belgium, the falloon purchased for popular subscription to represent Belgium in the centennial celebration of the battle of Waterloo, was turned over tonight to the pilot, Ernest De Myster, twice winner of the event. Lieutenant De Myster said the coming year will be June 16 would be keener than any other in the past. The Americans expected to land on the beach with negotiations with extreme thoroughness. He was confident, however, that the Belgians would be able to hold the beach.

Belgium's falloon was to be flown tomorrow should be revoked. The moved British Counts, who had been given the falloon by the authorities his sentiments.

FATAL TO CHILD**

London, N. J., June 3.—Trying to make tea for her 10-year-old son, a 34-year-old Mrs. Passarella gave up her life when her clothes became ignited while she was sitting in a chair made on the lawn of her home in Dunbarton. The child died after being severely injured by the flames. The mother is still sitting in the chair.

PARIS ACTORS BALK

AT BATHING SUITS

Paris, June 3.—Just because bathing suits are the prescribed attire for actors in the second act of "Celle et Her Virtue," the company of the Comedie Francaise, France's great National Theatre, threaten to be dissatisfied. The director of the theatre refused to produce the play on the grounds that it is too frivolous. As a result the author, J. K. Gaudin, is threatening to sue the theatre. Mr. Gaudin already has been played from the company and others are threatening to follow his example rather than expose their limits to Parisian audiences.

Q—All the lawyers were there as counsel for the motion picture men? A—Yes.

DISCUSSED CASE

Q—What was said about the Mishawum case? A—There was a discussion as to whether the matter ought to be settled or let go into court, and a discussion as to the chances of the Grand Jury indicting. If the Grand Jury did indict, it was felt there would never be any conviction because there were no grounds or cause for a conviction. There was a general discussion as to whether from a business standpoint, it would be advisable to take a chance, whether they could afford to let the matter get the publicity which naturally would follow. All the pros and cons were discussed and it was finally concluded that if it could be settled for a certain amount, a settlement should be made.

Q—And what was that amount? A—Well, there was a discussion between Mr. Zukor and Mr. Innes about it. When it was over they said that if the matter could be settled for \$150,000, plus fees of \$15,000, it should be settled. They said that if the total was not over \$100,000 they would settle on that basis.

Q—Do you recall any discussion about a quarter of a million dollars? A—I have no recollection of any such figure being mentioned.

Q—Was the \$150,000 figure which you referred to paid in addition to the \$15,000? Q—Yes sir.

Q—Was Stoenman present at the conference? A—Yes.

Q—Did he take part in the discussion? A—Yes, they all did some talking.

Q—Was there talk of stopping production? A—There was talk in connection with the case.

BOY UNDER CAR ESCAPES HARM

SCENE OF ACCIDENT IN DORCHESTER

The prompt action of Motorist Thomas G. Chapman in bringing his car to a halt almost a dead stop on Bowdoin street, Dorchester, when Charles Booth, sixteen years old, of Riefield street, Dorchester, was thrown from his bicycle in front of the car, saved the boy's life. It was necessary to jack up the car to free the boy from underneath the fender. To the great surprise of scores who witnessed the accident, the boy arose after he was extricated and announced that he was uninjured, except for a slight cut on one of his legs. Indeed, Charles Booth.

and he was the most wonderful lover—and so romantic.

"Why, I met him the second week I played in Boston and before the end of that week he had proposed to me. He kept my dressing room banked with flowers.

"I loved him from the first but I just couldn't make up my mind to marry him right off the bat. When I left Boston with the company and we toured New England, he finally gave in and here I am, all ready to settle down and forget all about the stage."

Miss Lee admits that she was reared in a convent. Her home was in New York city but she removed to Boston and took an apartment with her mother, following her engagement.

The wedding will take place next week and the couple will spend their honeymoon in a Maine camp.

"No frills for me at a wedding," declared the bride. "Of course I want a white dress but getting married is a purely personal affair. I don't see why there should be a lot of people and a big ceremony."

CHRISTMAS CARD
11 YEARS ON WAY

Springfield, June 3.—A Christmas greeting card mailed December 1912, in the neighboring village of Peabody Hills was received May 21 last by Miss Olive H. Causey, nearly eleven and a half years after it was mailed and more than six years after the death of the sender, George Huston, Miss Causey announced to day.

The card bore only the original Peabody Hills postmark and that of a substitution in this city of May 29.

Miss Causey said that she was reared in a convent. Her home was in New York city but she removed to Boston and took an apartment with her mother, following her engagement.

The wedding will take place next week and the couple will spend their honeymoon in a Maine camp.

"No frills for me at a wedding," declared the bride. "Of course I want a white dress but getting married is a purely personal affair. I don't see why there should be a lot of people and a big ceremony."

WOMAN WIELDS AXE; LEADS DRY RAID

Bay State's "Carrie Nation" Aided by Troopers in Clearing Out Blackstone Saloon

Hannah Brigham of Worcester is making a valiant effort to step into the shoes of the late Carrie Nation, who used to chop her way into saloons with an axe.

Mrs. Brigham, a Massachusetts prohibition agent, descended on the saloon of George A. Padon, Centre St., Blackstone, smashed her way into the place and got away with a lot of beer.

In a raid last week, with drawn revolvers, Mrs. Brigham, Lavaca and troopers broke into another saloon on Canal street and made three arrests. In a free-for-all fight in the saloon Mrs. Brigham came out victorious.

TINNEY'S GIRL VICTIM PLAYED IN LETTERS

Messages of Hatred and Pleas for Comedian Pour in on Imogene

New York, June 2.—"Tell the girls to stay away from Broadway. Tell them there's only heartbreak there, and shame—and better pain."

Imogene Wilson, whom painters have called the most beautiful girl on Broadway, sent forth this message as she lay in her home, No. 137 West Seventy-second street, slowly recovering from the beating given her a week ago by Frank Tinney, comedian.

"To think what I might have been," she said, "and to realize what has been made of me."

She had been reading letters, miles away of hate and loathing and condemnation from women, letters telling her she should be hanged for breaking up the Tinney home, letters advising her to kill herself, letters from men telling her they have both the nerve and the inclination to aid her.

Miss Wilson suffered another heart-ache but she is in much better condition than she was on Thursday when she appeared before Magistrate Goodman in West Side Court

\$30,000 Stolen Silk Found in Brooklyn; Three Arrested

New York, June 2.—Silk valued at \$30,000, which was stolen in May to hold up men who kidnaped the driver of the truck, was recovered by detectives early today in a Fourth avenue loft building. Miles Rosenbluth, a Bronx lawyer, and Benjamin Blumenthal of Manhattan were arrested in the building on charges of criminally receiving stolen property, and Morris Zeff, a Brooklyn merchant, was arrested at his home on a charge of having been involved in the robbery.

The police alleged that Zeff sold the silk to Rosenbluth and Blumenthal for \$15,000.

To preserve the collection. It is believed she will have recovered by Friday, the day set for her hearing. She is going through with it, she says, and she denies all reports of a settlement out of court and a lawyer-mediated.

The telephone rings all the time, Mrs. A. C. Friedman, Imogene's sister, answers it. Through her, communications of hate and loathing are made to Imogene.

Shortly after midnight someone rattled the knob on the front door and the showgirl believed she was about to be kidnapped. She shouted hysterically into the phone.

"Morning, Tinney's attorney, Kessler and Goldman, are looking all over town for him. They haven't seen him since he left court Tuesday night and if they do not find him soon they will withdraw his counsel," they declare.

POLITICS BOIL IN RANDOLPH POLICE ROW

New Chief Orders Ex-Chief to "Move On" and Now Whole Town IsAwaiting Issue

Randolph, June 2.—The Randolph political pot is boiling again. Heated the closed doors at the Town Hall, where the Board of Selectmen meet the first Monday of each month, were a unanimous vote to move on to a new location.

Quitting one Main street parlance, "It looks like a show down was coming, to waddy."

Out of the maze of charges and counter-charges, a reporter for the American gleaned the following facts:

1. Ernest H. Cox, who defeated Robert T. McLaughlin for the Board of Selectmen last election, secured the removal of Chief of Police John Hanly and appointed Patrick O'Donnell in his place.

2. Last Thursday night the new chief traded up Main street filled with a sense of duty and a group of men conversing in a doorway of the Porter Block. In the entrance was a sign reading, "No Lettering—Police Take Notice."

3. In the group were former Selectman McLaughlin and Ex-Chief Hanly. "Move often there," said McLaughlin. "Can't you read the sign."

From that point on stories differ a bit. On one thing it is agreed. Mr. McLaughlin objected to the order and so on Ex-Chief Hanly. It happened that Mr. McLaughlin runs a shoe store in the Porter Block and the warning sign is tacked on his own doorway.

Witnesses agree that Chief McLaughlin, informed the police chief that it was a case of move on or go to making words.

Selectman Forrest admitted there had been a complaint as the result of the affair, but said no charges have been filed. "If they make charges we will give them a hearing," he said. "Looks to me, however, as though Hanly ought to be treated like any one else."

"Looks that way to me," agreed Selectman Cox.

From all indications there will be a public hearing. Former Selectman McLaughlin and ex-Chief Hanly are not men to be dealt with lightly. But the sign which started all the trouble has been tampered with by some joker and now reads:

Because—Dr. Pierce's Favorite Prescription was so beneficial to me that I take great pleasure in relating my experience for the benefit of other women. During my young girlhood I had a breakdown in health. I was nervous and weak and would have such severe headaches that I would not be able to get out of bed for three or four days at a time. I was miserable and would have dizziness and fainting spells. I was in a miserable condition of health when I began taking Dr. Pierce's Favorite Prescription and by the time I had taken two bottles I was well and strong and did not suffer any more. I kept well and strong up to the last—and my strength came back very quickly afterwards.

LETTERS HOME

'Will the world bid them welcome?

AFTER school or college—what then? Your babies have suddenly become men and women. They have gone out into the world to fight their own battles, to make their own mistakes and to enjoy their own rewards.

How have you armed them for the struggle? With money? That is soon spent. With influence? It merely opens doors.

Health—that is what wins. The world welcomes health. Health gives courage, personality, endurance, charm. It makes friends, seizes opportunity.

Your children are well because you have taught them to live wisely—and to keep clean. Their skins are clear and fresh because you have taught them the need of antiseptic cleanliness.

Why has Lifebuoy Health Soap become the most widely used toilet soap in the world?

It is because American mothers worship health and have learned that Lifebuoy is a

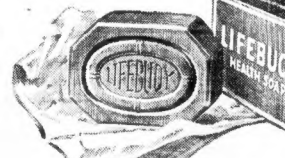

valuable everyday protection to health. It is because Lifebuoy makes friends.

Everyone loves the gracious, creamy lather and the delightful feeling of freshness imparted by the gentle antiseptic. Everyone appreciates the softness, fine texture and rosy glow of skin cleansed regularly with Lifebuoy.

Try Lifebuoy. The proof comes quickly. The benefits are lifelong.

WALKER KEEPS CROWN IN FURIOUS BATTLE WITH TENDLER

CHAMP TOO TOUGH FOR TENDLER

By DAVID RUSON
Philadelphia, June 3.—Yes, just as you have suspected all along, Mike Walker of Philadelphia, N. J., remains the world's light champion of the world, despite a ten round tilt with the pallid Lew Tendler, of Philadelphia.

The referee, the late "Big Ben" Roth, did not get a chance to express an opinion, but there is no reason to believe he would have demurred. Nearly all the 20,000 fans and the mass of the spectators gathered in the arena, based on the fact that Mike Walker, a National League pitcher, had been defeated by Tendler, a former professional boxer, in a ten round battle. NEW TYPE COIL WORKS BETTER IN SUPERS

Gickles Diamond Weave Tubes
Sharper, Prevents Squealing
and Mounts Easily

NEW COILS FOR SUPER FAMILY READY NOW

DIAMOND WEAVE COILS

The new Gickles diamond weave coils for the American Super and the two units of the superette are now ready. The type of winding employed on these coils gives for distributed capacity. They are more ready mounted than the old cylindrical style.

HOISE CURRENT FOR FILAMENT AND PLATE

New Devices Convert Either
AC or DC Into Energy
for Tubes

Two new devices for converting either alternating or direct current into energy for radio tubes have been developed by the Radio American company. The first device is a filament converter, which will convert either AC or DC into the energy required for the filament of a radio tube. The second device is a plate converter, which will convert either AC or DC into the energy required for the plate of a radio tube. Both devices are simple in construction and easy to use.

Radio Receiving Conditions Tonight

Radio receiving conditions tonight will be good from stations broadcasting all over the country because of a uniform high pressure area which prevails.

Big Show in Opera House to Wind Up Campaign for Hospital Patients

A luncheon chapter to the campaign organized by "Boxes of Cheer" will be held at the Opera House on Sunday evening. The purpose of the campaign is to collect boxes of cheer for the patients of the Massachusetts General Hospital. The boxes of cheer are made up of letters, cards, and other items that will cheer up the patients.

American Concert to Be Held Thursday This Week

Although there is no Boston American concert at WNAC tonight, this does not mean that the regular weekly concert by the Philharmonic Orchestra and soloists have been discontinued, or that fans will miss one this week. The concert this week was postponed until Thursday in order that the Shepard House station could broadcast Masonic Night at 8 "Pops," which was a date which could naturally not be postponed. The American concert will hold on Tuesday of next week.

THREE TIPS
The first tip is to use the correct type of coil. The second tip is to use the correct type of filament. The third tip is to use the correct type of plate.

AND CONNECTIONS
The first connection is to the filament. The second connection is to the plate. The third connection is to the ground.

THE PRINCIPLE OF THE SUPER-DAUCON
The principle of the Super-Daucon is to use a metal box to hold the tubes. The metal box is made of a material that is a good conductor of heat. The tubes are held in the box by a metal plate. The metal plate is made of a material that is a good conductor of heat.

Crib to Give
Editor Helping Hand: Will you please give someone my address and ask them to call for a crib and some clothes for children up to six years old?
Thank you. We have your address of Mrs. V. F. has three children in need and no place to put the crib which is expected any day.
W.G.

For Boy and Girl
Editor Helping Hand: Kindly send me the address of a needy mother who has a girl of five or six and one or two boys of 4 or 7. I have some clothes to send. I like to have these all go to the family if possible, and will be boxed parcel post.
Springfield.
